

Straw Vases

Re-introducing Our Straw Flower Vases

We've been very busy making new unique vases to display the flowers from our blossoming garden.

Just like wheel-thrown pots these one-of-a-kind containers are woven from straw on an antique hat making machine and then coated to make them waterproof and virtually indestructible - they bounce right off the floor!

Call or email us for pricing on our new unique Flower Vases. We'll be glad to send samples of natural straw and colors.

In Small, Medium and Large
